

Pelican Lighting Poles

K-LITE

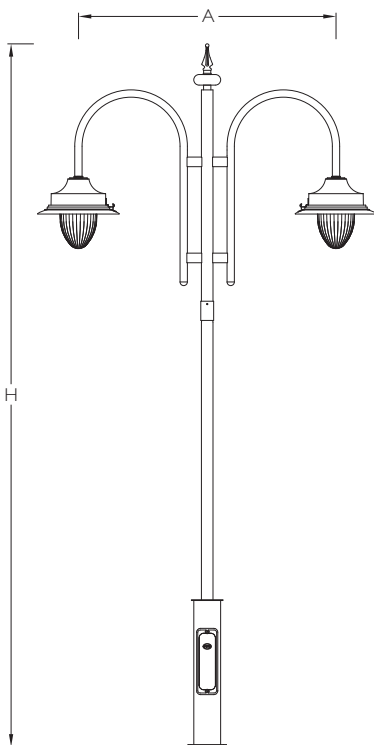

Pelican with its arched tubular design offers artistic, inventive style and solid, proven integrity, giving it a touch of timelessness. From stylistic considerations to the more practical aspects of durability, reinforcing the character of a public space and offer you the consummate blend of beauty and business.

Features:

- Pelican pole is designed for street lighting, suitable for pendent type luminaires.
- This architecturally designed pole is structurally sound. Pole design parameters vary depending on the type of bracket and loading factor.
- Pole section welded to base plate by certified welders using high end MIG welding processes.
- Built-in control box with cast aluminium service door and safety rope.
- The control gear tray is prewired with MCB, terminal connectors for loop-in loop-out arrangement.

ID	Arms	A	H
