Slice Pole

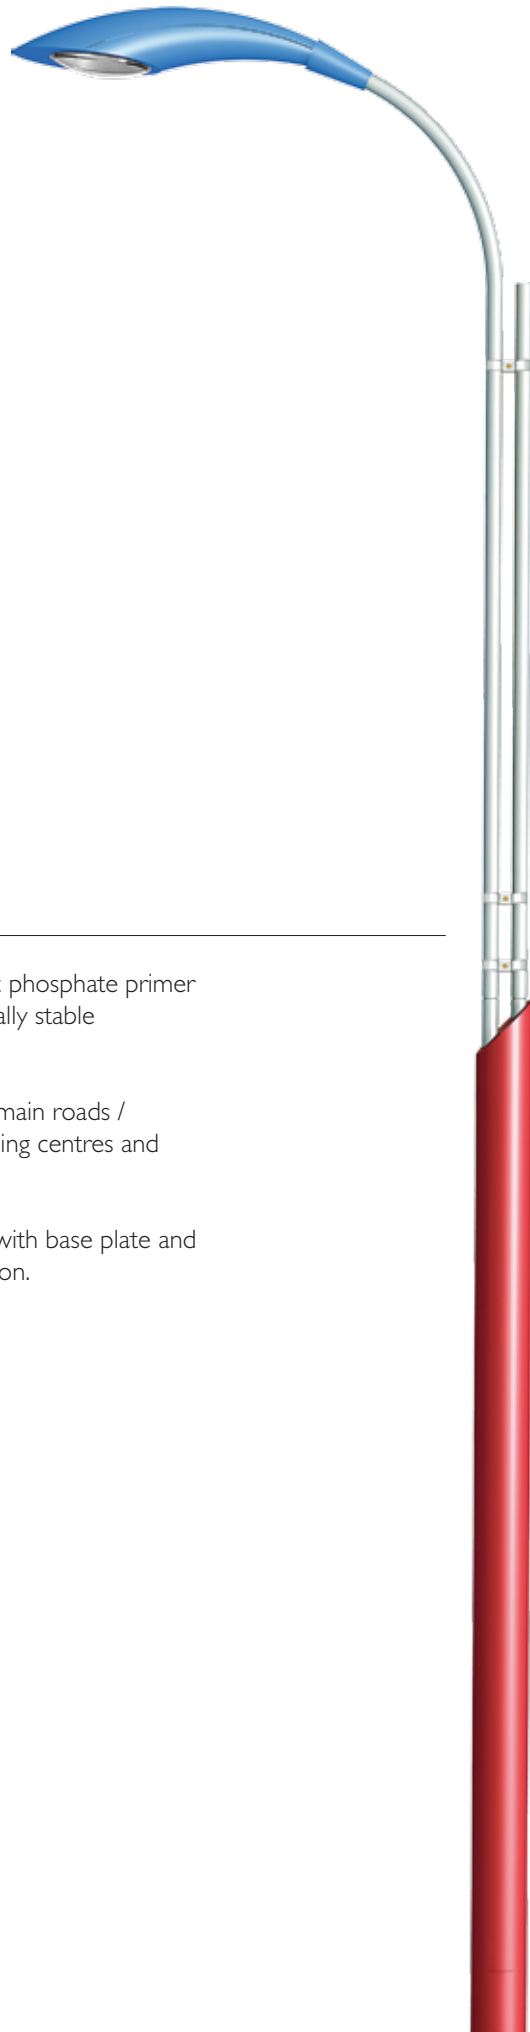

Plan view are indicative

**Bull Horn** street pole is a contemporary arched design which suits the clean aesthetics of modern architecture. It reinvents lighting equipment with appeal simplicity and elegance. With parallel geometric lines and hybrid construction, these light objects with their avant grade design will integrate with all urban ambiance, in a way that is harmonious and enhancing.

#### Features :

- Bull Horn pole with single / double / asymmetric arm is designed for street lighting as well as service roads.
- This architecturally designed pole is structurally sound. Pole design parameters vary depending on the type of bracket and loading factor.
- All pole sections are welded using special v groove technique by certified welders using high end MIG welding processes.
- Built-in control box with service door including lock and safety chain.
- The control gear tray is prewired with MCB, terminal connectors for loop-in loop-out arrangement.
- CE - Conformity mark

**Finish :** Coated with epoxy zinc phosphate primer and finished using environmentally stable polyurethane based paint.

**Applications :** Street lighting in main roads / secondary roads, resorts, shopping centres and parks.

**Installation :** Surface mounted with base plate and fitted on a pre formed foundation.
