SHARMILA KUMBHAT, K-LITE INDUSTRIES

She joined K-lite in 2011 and within a short span of time, she was able to prove herself, earning title of "Director of New Business Development".

K-lite has broken into international markets, progressed tremendously and the company's turnover has increased by more than four hundred percent under her directorship

At the age of nineteen she won "Best Female Entrepreneur Award" presented to her by the Chief minister of Tamil Nadu

Sharmila Kumbhat  
Director  
K-Lite Industries

Sharmila Kumbhat, Director, K-Lite Industries, Chennai started her professional career early age of sixteen in a grill manufacturing "Metal Craft" supporting her father Mr.Dilip khat. At the age of nineteen she won "Best Female Entrepreneur Award" presented to her by the Chief minister of Tamil Nadu. Later, she studied in U.S., Parsons School of Design in New York. Widely traveled around the world and gained further experience and understanding from different cultures; which continuously influenced her design and business acumen. While living in the United States, she started and ran two very successful export oriented companies. Due to her desire to come home in order to be more directly involved in her homeland, coupled with the emotional sentiment of bringing up her children in India, she decided to join K-lite in 2011 and within a short span of time she was able to prove herself, earning title of "Director of New Business Development". K-lite has broken into international markets, progressed tremendously and the company's turnover has increased by more than four hundred percent under her directorship. In 2017-2018, she went to Mumbai and won "Asia One- World's Greatest

Brands" for K-lite's architectural lighting & poles. In 1977 K-LITE began a long journey of innovation in lighting products, chasing the dream of light. Light allows us to realize the possibilities of our imagination. The quality of light influences the quality of life and it is clear that light must combine technique and emotions contemporaneously, defining new values, meanings, feelings, culture, comfort etc., overcoming the simple light - dark dichotomy. K-Lite, through their innovative outlook, have showcased a whole range of new products under various portfolios. The range is all the more very special because of the light source viz., energy saving, environment friendly "green" lighting with LED. The application with innovative design using LED includes retail lighting, office lighting, consumer luminaires, architectural lighting, facade lighting, pathway lighting, in-ground luminaire, tree-uplighter, up-down lighting, billboard lighting, vertical light bars, wall washers, area lighting poles and above all, street lighting with sleek polar lighting solutions, an instant hit. The creative and innovative designs are there to see for yourselves in our outdoor luminaires. The range of outdoor luminaires are very popular and extensively used in many prestigious locations

throughout the country. Street Lighting at Amritsar Golden Temple Complex, Varanasi City, Chandigarh- Mohali Highway etc., are standing proofs of our outstanding outdoor lighting projects. K-LITE has the expertise to manufacture 'custom built' luminaires. Almost since inception, we are closely associated with the Indian Railways, catering to their wide range of Luminaire requirements. Proximity of Indian Railway's most prestigious Passenger Coach Building Unit, Integral Coach Factory, and our capability to manufacture and test the custom-built luminaires enabled K-Lite to be in the forefront of their developmental activities and cater to the specially designed luminaire requirements of prestigious Rajdhani Express, Shatabdi Express, "Palace on Wheel" EMUs, Jaipur Metro, Delhi Metro, Bangalore Metro and above all the latest Kolkata-Metro and Sri Lankan Metro coaches.

Globally, lighting as an industry is growing at an alarming pace with projected value of around 2000 million USD. The coming decade is going to witness phenomenal changes in the field of lighting. The last decade thrust was energy saving measures, which gave rise to the LED lighting to replace all other conventional lighting. Application of solid state devices as a source of lighting has given way to new concepts in lighting control and automation. In such a context, automation in lighting is a major thrust area for the lighting designers as well as manufacturers/ traders. The order of the day is smart (green) concept in every field viz., smart home, smart city, smart pole, smart lighting, etc., With regard to lighting, Smart lighting technology may include high efficiency fixtures and automated controls that make adjustments based on conditions such as occupancy or daylight availability through lighting control system with an intelligent networked system of devices. These devices may include relays, occupancy sensors, photocells, light control.

### Superior Solutions for Power Quality.

- EPCOS key components
- LV and MV PFC capacitors (MPP, APP, gas-filled)
- PF controllers (4 to 16 steps, single and three CT sensing)
- Anti-resonance detuned harmonic filter reactors
- Tuned harmonic filters
- Capacitor duty contactors
- Thyristor switching modules (TSM)
- APFC panels (LV and MV)
- Power quality audits
