K-LITE introduces LED architectural lighting series for contemporary urban environments

Chennai – K-LITE Industries introduces a new series of LED architectural lighting solutions designed for indoor and outdoor applications across contemporary urban environments. The expanded portfolio includes facade lighting, pathway lighting, in-ground luminaires, wall washers, vertical light bars, billboard lighting and area lighting poles, alongside the brand's Sleek Polar Lighting Solutions. Developed for Indian conditions, the luminaires combine energy-efficient LED technology with a restrained contemporary design language, offering multiple optical distributions and colour temperature options to suit varied architectural settings. The Sleek Polar series further emphasises minimal visual integration through compact forms and concealed mounting details aligned with modern architectural geometries. +
