Illuminating Landscapes: K-LITE's High-Quality Architectural Luminaires

K-LITE: Illuminating Architecture Since 1977

Established in 1977, K-LITE is a pioneer in the design and manufacture of high-quality architectural luminaires and lighting poles. With decades of expertise, the brand has earned a reputation for delivering reliable, aesthetically refined lighting solutions that cater to a wide range of design preferences and functional requirements.

Sustainable Manufacturing, Timeless Design

Operating through state-of-the-art manufacturing facilities, K-LITE focuses on sustainable and energy-efficient LED technology. Every luminaire is engineered to meet stringent international quality standards while embodying architectural elegance and design precision.

Built to Withstand the Elements

K-LITE's landscape and outdoor lighting solutions are purpose-built for rugged environmental conditions, capable of withstanding:

Wind | Water | Direct Sunlight | Rain | Dust

All products feature high IP and IK ratings, ensuring superior protection against ingress and impact. This makes them ideal for demanding outdoor and landscape applications.

Comprehensive Product Range

K-LITE offers one of the most diverse and versatile lighting portfolios in the industry, including:

- Linear Wall Washers
- Up-Down Lighters
- LED Strips / Neon Flex
- Promenade Lighting

- Bollards & Pathway Lights
- Underwater Luminaires
- Post-Top Luminaires
- Bulkheads & Pathfinders
- IP67 Linear Profiles
- Polar Lighting Poles
- NEW: Facade Lighting Series

Lighting with Purpose & Beauty

Every K-LITE product represents a perfect blend of functionality and design excellence. Whether illuminating walkways, enhancing architectural façades, or creating ambiance in public spaces, K-LITE luminaires consistently deliver:

- Superior Illumination
- Long-lasting Durability
- Architectural Aesthetic Enhancement

Trusted by architects, landscape designers, and urban developers, K-LITE continues to transform spaces with lighting solutions that seamlessly integrate form, function, and beauty.

Polar Lighting Poles

The 'K-LITE' Surface Mounted Polar Lighting Pole, integrated with an LED Lighting Module, is an exclusive choice of designers for city beautification projects, offering both functionality and architectural appeal. It is available in a complete range of contemporary designs including Single Arm, Double Arm, L-Arm, V-Arm, Square Arm, and Parallel Arm configurations.

The pole is engineered to withstand adverse environmental conditions. Its sections are precisely welded using special grooving techniques and high-end MIG welding processes to ensure strength and durability. The control box is integral, featuring a built-in service door with a locking arrangement and safety chain. The mild steel pole is coated with an epoxy zinc phosphate primer and finished with an environmentally stable polyurethane-based paint. Each pole is supplied with the necessary foundation hardware suitable for normal soil conditions.

The Polar Lighting Pole arms are integrated with an LED modular lighting system, classified under the **green lighting category** for its environmental friendliness. The LED lighting modules deliver higher lumen output with lower power consumption. Each module is IP68 protected, developed after extensive research to meet diverse illumination requirements for urban spaces. The LED driver design ensures a harmonic distortion level not exceeding 10%, a power factor greater than 0.9, and built-in surge protection. Each LED module is individually rated at 60 watts. The control gear tray, pre-wired with terminal connectors, MCB, and loop-in loop-out arrangement, is housed within the control box integral to the pole.
